Frontend: React.js, Next.js, Tailwind CSS, Redux, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose

DevOps & Tools: Git, GitHub, npm, Postman, VS Code, Linux

AI/ML: Generative AI, LangChain, OpenAI API, Chatbot Development, Prompt Engineering

Soft Skills: Problem-Solving, Team Collaboration, Quick Learning

PROFESSIONAL EXPERIENCE

Web Development Intern	June
2024	

<i>OctaNet Services Pvt Ltd.</i>	<i>Bhubaneswar, Odisha, India</i>
----------------------------------	-----------------------------------

- Developed and deployed responsive web applications using modern JavaScript frameworks and best practices
- Collaborated with cross-functional teams to implement features that improved user engagement
- Optimised application performance through code refactoring and implementing efficient algorithms
- Participated in code reviews and contributed to maintaining high code quality standards

PROJECTS

HireMentis – AI Mock Interview Preparation Platform <i>Next.js, Vapi, Gemini LLM, SaaS</i>	2025
-----------------------------------------------------------------------------------------------------	------

- Designed and developed a SaaS platform to help job seekers prepare for interviews through AI-driven mock interviews and job listings
- Integrated Vapi voice agent to simulate realistic interview sessions with natural voice interactions
- Leveraged Gemini LLM to generate structured feedback with detailed scorecards and personalised improvement tips
- Built scalable architecture supporting multiple concurrent users with real-time performance analytics

BaatCheet – AI Persona Chat Platform <i>Next.js, React, Node.js, AI Integration, Responsive Design</i>	2025
-----------------------------------------------------------------------------------------------------------------	------

- Provided seamless, mentor-like AI experience accessible 24/7 for learners across all device types
- Showcased scalable AI persona architecture with modular logic supporting multiple AI personalities

SpeakinResearch – AI-Powered Employee Directory System <i>Next.js, Algolia, AI APIs</i>	2024
--------------------------------------------------------------------------------------------------	------

- Developed clean, scalable AI API routes for a freelance project,
- Understands your needs and connects you with the most relevant experts. Also, find new experts in various fields with all the information, using a web search integrated with LLM support.
- Designed an intuitive UI with synchronised sorting and filtering capabilities powered by Algolia's search engine

Inscribe – Full-Stack Blogging Platform <i>MERN Stack, JWT, TipTap, Vercel, Render</i>	2023
-------------------------------------------------------------------------------------------------	------

- Built a full-stack blog application enabling users to create, read, update, and delete posts with rich text editing
- Customised TipTap text editor for a rich, user-friendly writing experience with formatting options
- Implemented secure user authentication with JWT-based login and signup functionality
- Deployed backend on Render and frontend on Vercel, demonstrating modern deployment practices.

CERTIFICATIONS & ACHIEVEMENTS

Full Stack Web Development Certification	2024
-------------------------------------------------	------

Gen AI with Python and JavaScript Certification	2024
--------------------------------------------------------	------

Bhartiya Antariksh Hackathon 2025 Participant	2025
------------------------------------------------------	------

- Competed in a national-level space technology hackathon organised by ISRO
